

Renovate Main Building

ACTC Main Campus – Ashland, KY

Owner: Kentucky Finance Cabinet - DECA

User Agency: KCTCS

Contact: David Marshall

Phone: 502.782.0313

Email: david.marshall@ky.gov

Building Area: 149,400 SF.

Construction Cost: \$9.5 Million

Project Status: Completed

Project Number: C768

Project Description:

Major renovation/replacement of existing HVAC System, Lighting, Technology Systems and Fire Protection. Facility contains teaching classrooms, college administration, bookstore, restaurant area, college presidential suite, financial services, nursing programs, science labs and testing labs.

Engineering Highlights:

Electrical / Systems:

All new data systems and equipment was installed throughout the entire building. One MDF room serving five IDF rooms were created with standalone air conditioning systems. 50% of all IT systems are served by a new 250 KW natural gas generator that will also serve elevators and perimeter heating pumps and boilers.

Fire Suppression:

This project will complete a fire suppression project that started 19 years ago by the same Engineer. A new fire pump and new sprinkler system for four floors will be provided to complete the building for a 100% coverage sprinkler system.
